

## Dundee Rep and Scottish Dance Theatre Limited Visitor Charter: Green and Environmental

---

As part of our civic role as cultural leaders of our City and nation, our vision is to become a leader in environmental culture and to contribute to a sustainable society:

- To continue to raise awareness and motivate change in behaviour
- To continue to take responsibility for our impact on the environment
- To improve our performance on energy efficiency
- To promote environmental best practices
- To improve financial results

Without compromising customer satisfaction

If you are interested in the detailed work we are doing within the organisation please get in contact with Dundee Rep's Green Team.

We are asking our audiences' help to make Dundee Rep as environmentally sustainable as possible:

### **In advance of your visit:**

Plan your visit: our website is the most up-to-date source of information on all of our shows and information about your visit including travel details. Our Box Office team are available to provide information on our shows, and getting to the theatre. We are close to the city centre and rail station, and have a bike rack for those who wish to cycle. Once you have bought tickets, you have the options to have tickets printed by the Box Office or print your own.

### **The theatre:**

We use recycled products, and we recycle within the theatre and your help with disposing of rubbish in the correct bins helps us do that.

### **Catering in the theatre:**

We are proud of a menu made up of fresh, locally-sourced products. Our coffee and teas are fair-trade. Our cafe specials change daily to make the most of seasonal local products. Most of our food and drink are served in crockery or glass, and where we have to provide disposable containers, they are recyclable. We are happy to fill your water bottle with tap water and save the planet one water bottle at a time.
